Correction: Seroprevalence of *Borrelia burgdorferi* sensu lato and *Anaplasma phagocytophilum* in Danish horses

Marie GB Hansen^{1,2}, Mette Christoffersen², Line R Thuesen¹, Morten R Petersen², Anders M Bojesen^{1*}

Correction

After publication of this work [1] it has come to our attention that one of the references used in the article [2] has been incorrectly cited. The sentence “The seroprevalence of *A. phagocytophilum* in Europe varies from 83.3% in Holland” in the second paragraph of the Background section of the article is incorrectly written and should state “The PCR detection of *A. phagocytophilum* in Europe varies from 9.8% in Holland” instead. The authors apologise for any confusion caused.
